Full! < > click on the network below to get started! The most important part of CPR stay on the phone until this person tells you to hang -911 ___ used to push air from the lungs when an object is stuck in the airway or throat needs to make chest height fits on the victims of the mouth and nose update password Note: you need to update your password before you can log on. Is it my puzzle? All your puzzles are accessible from your puzzles page, which you can access using the navigation bar at the top when you log on. Be sure to sign in with the same email address you used when creating your puzzle. How do I print? There is a make button to print on the top left of your puzzle that will let you subscribe to a plan or buy one puzzle. Once pushed, this button will turn into a 'preview + publish' button that will put your puzzle in a format that can be printed or solved online. Once your puzzle is published, you can click the print icon or use the print function in your browser. It seems strange when prints first make sure you posted your puzzle. See how to print? Above for more information.99% of other printing issues related to printer settings. Instead of trying to play with printer settings, which can be time consuming and frustrating, there are some solutions that you can try. You can try printing from a different browser, since different browsers have different default printing settings. Alternately, you can try to save as a PDF (next to the print icon) and print it. Why isn't this free? We have invested in building a number of premium features that free websites can't offer: the ability to automatically or manually add words to your puzzle, edit puzzles and save you, the ability to access your puzzles from any computer, an uncrowded and ad-free interface, the ability of friends and colleagues to solve your online puzzles, and quickly respond to reported problems. Hobbyist crossword is the lowest pricey service we've found and provides these features, and is designed for people who are dissatisfied with the free sites that can be provided. I thought it was free. We are constantly trying to provide a clear and direct user experience, and do not try to hide the price: on the page where you do your puzzle work, the price is listed in the overview at the top left (before logging in), down the make button for printing (after logging in), in the FAQ below the grid, as well as in the round. Unfortunately, we have limited control over how we view google and other sites, so if hobbyist crossword shows when someone is looking for a free site we can't do anything about it. It says there is no account with my email. First check using a different email address to create your account. Your login email is the email address where you received a welcome message from us. Alternately, it is possible that there was a typo in your email when you created your account. If so, report a problem below, then provide the name and the last four digits on the card you used when you signin. We will use this information to track your account. I'm asked to pay for a second time. If you are a hobbyist crossword member and still ask for payment, then you may have Create a second account. Your paid account will have the email address you received confirming your subscription. If you have never received such an email, or are still unable to find your paid account, report a problem below and provide the last four digits on the card you used when signing up. We will use this information to track your account. The password reset does not work. For security, you can't see or reset your password, so read the information below carefully. If you don't get a password reset, check the spam folder, make sure you check the email account to which the email was sent, and make sure that some school email systems block emails from non-school email addresses. If you have a password reset message but the password is not acceptable, make sure you use the latest email to reset the password: sometimes people will hit the button twice, and the second password will only work. Make sure you copy and paste your password not to get space outside, or if you write it in mind that it is case sensitive and that low-status L can look like number 1, etc. How can I cancel? You can unsubscribe from my account page that you can access using the navigation bar at the top when you sign in. Support representatives cannot unsubscribe on your behalf. Not all my words are in my puzzle. When you click the Order button, our algorithm will try to arrange all your words on the net, and you'll move the words around to try to contain most of the words. This will get all the words on the net about 90% of the time, depending on the list of words. For the other 10%, you'll get an alert explaining that words that didn't fit were added to the scratch pad. It prints on two pages. Big puzzles won't always be printed on a single page - clues and grid are the smallest we can make while keeping them read able for everyone. However, print different browsers in slightly different ways, so you can try using a print preview using a different browser (or try the PDF button) to see if you like how it looks best. I haven't heard from you. We usually respond to all reported cases in about one day. If it's been a few days and you haven't received it, it's possible that we sent an email that didn't reach you. Check your spam folder and be aware that some school email systems block emails from non-school email addresses. Try to provide a different email address if you think our emails are blocked. The answers take about a day. Try the quick answer above for faster accuracy. Your email: Problem: Problem:
